Elsevier Science B.V.

Author Index

Arnott, J.T., *see* Major, J.E. et al.
Attiwill, P.M.
The disturbance of forest ecosystems: the ecological basis for conservative management 247
Attiwill, P.M.
Ecological disturbance and the conservative management of eucalypt forests in Australia 301
Balzarini, M., *see* Catalán, L. et al.
Bennett, W.S., *see* Maguire, D.A. et al.
Catalán, L., Balzarini, M., Taleisnik, E., Sereno, R. and Karlin, U.
Effects of salinity on germination and seedling growth of *Prosopis flexuosa* (D.C.) 347
Chamshama, S.A.O., *see* Munishi, P.K.T. et al.
De Rocher, T.R. and Tausch, R.J.
Predicting potential transpiration of singleleaf pinyon: an adaptation of the potometer method 169
Dvorak, W.S. and Ross, K.D.
Three-year growth and stability of Honduran provenances and families of *Pinus tecunumanii* 1
Endo, M.
CAMCORE: Twelve years of contribution to reforestation in the Andean region of Colombia 219
Fahey, T.J., *see* Hughes, J.W. et al.
García-Montiel, D.C. and Scatena, F.N.
The effect of human activity on the structure and composition of a tropical forest in Puerto Rico 57
Grossnickle, S.C., *see* Major, J.E. et al.
Hughes, J.W. and Fahey, T.J.
Litterfall dynamics and ecosystem recovery during forest development 181
Karlin, U., *see* Catalán, L. et al.
Last, F.T., *see* Musoko, M. et al.
Lebot, V. and Ranaivoson, L.
Eucalyptus genetic improvement in Madagascar 135
Lumme, I.
Nitrogen uptake of Norway spruce (*Picea abies* Karst.) seedlings from simulated wet deposition 87
Maguire, D.A., Moeur, M. and Bennett, W.S.
Models for describing basal diameter and vertical distribution of primary branches in young Douglas-fir 23
Major, J.E., Grossnickle, S.C. and Arnott, J.T.
Influence of dormancy induction treatments on the photosynthetic response of field planted western hemlock seedlings 235

Mason, P.A., *see* Musoko, M. et al.
McGregor, J.
Woodland pattern and structure in a peasant farming area of Zimbabwe: ecological determinants and present and past use 97
Moeur, M., *see* Maguire, D.A. et al.
Munishi, P.K.T. and Chamshama, S.A.O.
A study of wind damage on *Pinus patula* stands in Southern Tanzania 13
Musoko, M., Last, F.T. and Mason, P.A.
Populations of spores of vesicular-arbuscular mycorrhizal fungi in undisturbed soils of secondary semideciduous moist tropical forest in Cameroon 359
Pâques, L.E.
Relationship between foliar nutrient concentrations and growth of hybrid larch (*Larix*×*eurolepis* Henry) 153
Prévost, M.
Scalping and burning of *Kalmia angustifolia* (Ericaceae) litter: effects on *Picea mariana* establishment and ion leaching in a greenhouse experiment 199
Ranaivoson, L., *see* Lebot, V. et al.
Ross, K.D., *see* Dvorak, W.S. et al.
Scatena, F.N., *see* García-Montiel, D.C. et al.
Sereno, R., *see* Catalán, L. et al.
Taleisnik, E., *see* Catalán, L. et al.
Tausch, R.J., *see* De Rocher, T.R. et al.

Elsevier Science B.V.

Subject Index

Allelopathy
Scalping and burning of *Kalmia angustifolia* (Ericaceae) litter: effects on *Picea mariana* establishment and ion leaching in a greenhouse experiment 199
Basal diameter
Models for describing basal diameter and vertical distribution of primary branches in young Douglas-fir 23
CAMCORE
CAMCORE: Twelve years of contribution to reforestation in the Andean region of Colombia 219
Carbon storage
Ecological disturbance and the conservative management of eucalypt forests in Australia 301
Clear-felling
Ecological disturbance and the conservative management of eucalypt forests in Australia 301
Conservation
The disturbance of forest ecosystems: the ecological basis for conservative management 247
Disturbance
Ecological disturbance and the conservative management of eucalypt forests in Australia 301
The disturbance of forest ecosystems: the ecological basis for conservative management 247
Diversity
Ecological disturbance and the conservative management of eucalypt forests in Australia 301
The disturbance of forest ecosystems: the ecological basis for conservative management 247
Dormancy induction
Influence of dormancy induction treatments on the photosynthetic response of field planted western hemlock seedlings 235
Douglas-fir
Models for describing basal diameter and vertical distribution of primary branches in young Douglas-fir 23
Ecological determinant
Woodland pattern and structure in a peasant farming area of Zimbabwe: ecological determinants and present and past use 97
Ecosystem recovery
Litterfall dynamics and ecosystem recovery during forest development 181
Ericaceous shrub
Scalping and burning of *Kalmia angustifolia* (Ericaceae) litter: effects on *Picea mariana* establishment and ion leaching in a greenhouse experiment 199

Eucalyptus
Ecological disturbance and the conservative management of eucalypt forests in Australia 301
Eucalyptus genetic improvement in Madagascar 135
Fire
Ecological disturbance and the conservative management of eucalypt forests in Australia 301
The disturbance of forest ecosystems: the ecological basis for conservative management 247
Foliage biomass
Predicting potential transpiration of singleleaf pinyon: an adaptation of the potometer method 169
Foliar analysis
Relationship between foliar nutrient concentrations and growth of hybrid larch (*Larix* × *eurolepis* Henry) 153
Forest
The disturbance of forest ecosystems: the ecological basis for conservative management 247
Forest development
Litterfall dynamics and ecosystem recovery during forest development 181
Fungus
Populations of spores of vesicular-arbuscular mycorrhizal fungi in undisturbed soils of secondary semideciduous moist tropical forest in Cameroon 359
Gap ecology
The disturbance of forest ecosystems: the ecological basis for conservative management 247
Genotype × site interaction
Three-year growth and stability of Honduran provenances and families of *Pinus tecunumanii* 1
Germination
Effects of salinity on germination and seedling growth of *Prosopis flexuosa* (D.C.) 347
Greenhouse experiment
Scalping and burning of *Kalmia angustifolia* (Ericaceae) litter: effects on *Picea mariana* establishment and ion leaching in a greenhouse experiment 199
Growth
Relationship between foliar nutrient concentrations and growth of hybrid larch (*Larix* × *eurolepis* Henry) 153
Three-year growth and stability of Honduran provenances and families of *Pinus tecunumanii* 1
Human activity
The effect of human activity on the structure and composition of a tropical forest in Puerto Rico 57
Improvement provenance
Eucalyptus genetic improvement in Madagascar 135
Ion leaching
Scalping and burning of *Kalmia angustifolia* (Ericaceae) litter: effects on *Picea mariana* establishment and ion leaching in a greenhouse experiment 199
Larix
Relationship between foliar nutrient concentrations and growth of hybrid larch (*Larix* × *eurolepis* Henry) 153

Litterfall
Litterfall dynamics and ecosystem recovery during forest development 181
Mineral nutrition
Relationship between foliar nutrient concentrations and growth of hybrid larch (*Larix* × *eurolepis* Henry) 153
Miombo woodland
Woodland pattern and structure in a peasant farming area of Zimbabwe: ecological determinants and present and past use 97
Needle nitrogen
Nitrogen uptake of Norway spruce (*Picea abies* Karst.) seedlings from simulated wet deposition 87
Nitrogen
Nitrogen uptake of Norway spruce (*Picea abies* Karst.) seedlings from simulated wet deposition 87
Peasant farming area
Woodland pattern and structure in a peasant farming area of Zimbabwe: ecological determinants and present and past use 97
Photosynthetic response
Influence of dormancy induction treatments on the photosynthetic response of field planted western hemlock seedlings 235
Picea
Nitrogen uptake of Norway spruce (*Picea abies* Karst.) seedlings from simulated wet deposition 87
Scalping and burning of *Kalmia angustifolia* (Ericaceae) litter: effects on *Picea mariana* establishment and ion leaching in a greenhouse experiment 199
Pinus
A study of wind damage on *Pinus patula* stands in Southern Tanzania 13
Three-year growth and stability of Honduran provenances and families of *Pinus tecunumanii* 1
Potometer method
Predicting potential transpiration of singleleaf pinyon: an adaptation of the potometer method 169
Primary branch
Models for describing basal diameter and vertical distribution of primary branches in young Douglas-fir 23
Progeny test
Eucalyptus genetic improvement in Madagascar 135
Prosopis
Effects of salinity on germination and seedling growth of *Prosopis flexuosa* (D.C.) 347
Reforestation
CAMCORE: Twelve years of contribution to reforestation in the Andean region of Colombia 219
Rhizosphere
Nitrogen uptake of Norway spruce (*Picea abies* Karst.) seedlings from simulated wet deposition 87
Salinity
Effects of salinity on germination and seedling growth of *Prosopis flexuosa* (D.C.) 347
Salt-tolerance
Effects of salinity on germination and seedling growth of *Prosopis flexuosa* (D.C.) 347
Seed
Effects of salinity on germination and seedling growth of *Prosopis flexuosa* (D.C.) 347

Seedling
Influence of dormancy induction treatments on the photosynthetic response of field planted western hemlock seedlings 235
Semideciduous moist forest
Populations of spores of vesicular-arbuscular mycorrhizal fungi in undisturbed soils of secondary semideciduous moist tropical forest in Cameroon 359
Singleleaf pinyon
Predicting potential transpiration of singleleaf pinyon: an adaptation of the potometer method 169
Spore
Populations of spores of vesicular-arbuscular mycorrhizal fungi in undisturbed soils of secondary semideciduous moist tropical forest in Cameroon 359
Stability
Three-year growth and stability of Honduran provenances and families of *Pinus tecunumanii* 1
Transpiration
Predicting potential transpiration of singleleaf pinyon: an adaptation of the potometer method 169
Tropical forest
The effect of human activity on the structure and composition of a tropical forest in Puerto Rico 57
Undisturbed soil
Populations of spores of vesicular-arbuscular mycorrhizal fungi in undisturbed soils of secondary semideciduous moist tropical forest in Cameroon 359
Vertical distribution
Models for describing basal diameter and vertical distribution of primary branches in young Douglas-fir 23
Western hemlock
Influence of dormancy induction treatments on the photosynthetic response of field planted western hemlock seedlings 235
Wind damage
A study of wind damage on *Pinus patula* stands in Southern Tanzania 13
Woodland pattern
Woodland pattern and structure in a peasant farming area of Zimbabwe: ecological determinants and present and past use 97
